

TSCA Regulation

Dear Boscov's Business Partner,

Boscov's would like to thank you for your partnership that has contributed to another successful year for both of us. We regard our vendors as partners in ensuring that all Boscov's merchandise is safe for our customers. In pursuit of that goal, Boscov's Purchase Order Terms and Conditions clearly states that as a Boscov's business partner, it is your responsibility to ensure that, "all goods and/or services shall conform to and be furnished in accordance with all applicable Federal, state and local law, rules and regulations."

As you may be aware, on December 12, 2017 new regulations from the U.S. Environmental Protection Agency under TSCA Title VI (40 CFR §§ 770.30, 770.40) applicable to certain composite wood products become effective (see the EPA website for details: <https://www.epa.gov/enforcement/toxic-substances-control-act-tsca-and-federal-facilities>).

In order to ensure Boscov's compliance with these new regulations, we are required to only purchase compliant composite wood products and receive and maintain invoices, bills of lading or comparable documents that include a written statement from the supplier that the composite wood product is compliant.

Therefore, on or before December 12, 2017 invoices for covered composite wood products purchased by Boscov's must include the following statement:

"Seller confirms the composite wood product meets the United States Environmental Protection Agency's standard requirements of Toxic Substances Control Act (TSCA) for Formaldehyde Emissions from Composite Wood Products specified in the TSCA Title VI (40 CFR §§ 770.30, 770.40)."

Please let your buyer know if you have questions regarding this matter. Thanks for your business partnership and your immediate attention to this request.
