

PFAS Disclosure for Other Products (not for cookware, textiles, or cosmetics)

There are numerous state regulations regarding the use of per- and polyfluoroalkyl substances (commonly known as “PFAS”). These regulations run from disclosure of usage to complete bans on the substance in some states. These chemicals are used in products to provide characteristics including, but not limited to, non-stick, heat-proofing, water-proofing, and stain resistance. Boscov's is requiring the disclosure of PFAS in **any** products and/or product packaging supplied to Boscov's.

For the purposes of this request, the terms are defined as:

- A. “*Perfluoroalkyl and polyfluoroalkyl substances*” or “PFAS” means a class of fluorinated organic chemicals containing at least one fully fluorinated carbon atom.
- B. “*Regulated perfluoroalkyl and polyfluoroalkyl substances of PFAS*” means PFAS that a manufacturer has intentionally added to a product and that have a functional or technical effect in the product, including the PFAS components of intentionally added chemicals and PFAS that are intentional breakdown products of an added chemical that also have a functional or technical effect in the product.

For any products and associated packaging we may purchase from you or have purchased from you that contain PFAS chemicals, our requirements are as follows:

- We are requesting you notify us of the presence of PFAS in any product and/or its packaging you supply to Boscov's.
- We request you note the benefit that the inclusion of PFAS in the product and/or its packaging provides, e.g. water-proofing or stain-resistance characteristics.
- Additionally, product packaging and website language must not contain misleading marketing claims about the presence or identity of chemicals in products, e.g. item is labeled as all-natural, but contains PFAS.
- Your general plan to have the products PFAS-free and the anticipated completion date for the elimination of PFAS in the product and/or its packaging.

We Need Confirmation From You - An individual in a position of authority within your company and with adequate knowledge of the products supplied, to confirm your receipt of these instructions from us. You may provide such confirmation by completing and scanning the PFAS Statement – Other Products (Attachment A) to us at PFASCompliance@boscovs.com.

We appreciate your attention to this matter for the transparency of contents in products offered by Boscov's in the interest of our customers. For any questions on this topic, please email PFASCompliance@boscovs.com.

ATTACHMENT A

PFAS Statement – Other Products (not for cookware/small kitchen appliances, textiles, or cosmetics)

Please provide information on the following items:

1. We require a list of products and/or product packing sourced from you, from 2024 to current day, that contain regulated PFAS and the benefit of the inclusion of PFAS in the product and/or its packaging:

Item UPC	Item Style #	Item Description	Reason for PFAS
Example123456789	PN – 5215 - Black	Ball Point Pens - Black	Waterproof ink

Alternatively, you may attach a list of Products in the format above.

☐ ← Check this box if all products and associated packaging we source from you **DO NOT** contain regulated PFAS, then proceed to #4.

2. For any of the items listed above, the product packaging and website language must not contain misleading marketing claims about the presence or identity of chemicals in products, e.g. item is labeled as all-natural, but contains PFAS.
3. For the items listed above, please provide the timeline to move to PFAS-free versions of the products and/or packaging and the general steps outlining the process achieve comparable results for the benefits that PFAS previously provided.
4. For any future purchases, we require written notice submitted to PFASCompliance@boscovs.com if any of the products to be provided to Boscov's contain regulated PFAS.

I certify that the above information and any attachments are accurate and true to the best of my knowledge.
